

## **Fair Districts Book Discussion**

Please join Fair Districts Indiana County for a discussion of the book “Unrigged: How Americans Are Battling Back to Save Democracy” by David Daley at the Indiana Free Library on Wednesday, April 12, at 7:00 PM.

“Unrigged” is an uplifting story of how grassroots political movements around the US are forcing significant changes in how government operates. There are chapters on fighting for access to Medicaid in Idaho, redistricting reform in Michigan that began with a Facebook post that went viral, the restoration of voting rights for felons in Florida who successfully served their prison sentences and a campaign for ranked choice voting in Maine.

The Indiana Free Library will have copies of the book available to read before the discussion and an internet search found many low cost books available on eBay and other sites.

Join us to be inspired by actions used by ordinary citizens to enact change in their state and local governments.
